# WHERE DO I THROW THEM?

## List in alphabetical order for separate waste in *Comune di Barga*

By Zero Waste Observatory, Comune di Barga

The Zero Waste project is like a chair with three legs. To keep it up, each leg must be strong. The three legs are: **1.** Comune administration; **2.** The company that picks up waste; **3.** Citizens. If not only one of these legs doesn't work, the chair will fall apart.
